

CURRICULUM VITAE

Name: Leonid Oster

Date & place of birth: February 15, 1956, Tashkent, USSR.

Citizenship: Israeli

Date of arrival to Israel: May 23, 1990.

Marital Status: Married + 3

Affiliation: SCE - Sami Shamoon College of Engineering, Beer-Sheva, P.O.B. 950, 84100.

Tel: +972-50-7523217.

E-mail: leonido@sce.ac.il

Residence address: 36 Feldberg Shmuel St., Beer-Sheva 84686, Israel.

Tel: +972-8-6494115.

1. Academic education

1981-1986 Ph.D. in Physics. University of Tashkent, USSR. Dissertation title: Photo – and Thermostimulated Exoelectron Emission and Luminescence of Alkali - Earth Sulphates. Adviser: Prof. Yaskolko, V.

1973-1978 M.Sc. in Physics. University of Tashkent, USSR. Dissertation title: Exoelectron Emission of CaS0₄. The influence of surface treatments on EEE. Adviser: Prof. Yaskolko, V.

2. Academic employment

Since 2013 Head of Physics Unit

Since 2009 Full Professor, Physics Unit, Sami Shamoon College of Engineering, Beer-Sheva, Israel.

2003-2009 Associate Professor. Physics Unit, SCE- Sami Shamoon College of Engineering, Israel.

1996-2003 Senior Lecturer. Physics Unit, Negev Academic College of Engineering, Israel.

1995-1996 Senior Lecturer. Physics Department, Ben - Gurion University, Israel.

1991-1995 Lecturer. Physics Department, Ben-Gurion University, Israel.

1991 Scientist. Physics Department, Tel-Aviv University, Israel.

1983 - 1990 Senior Scientist. Physics Department, Tashkent University, USSR.

1979 - 1980 Scientist. Department of Thermal Physics, Tashkent, USSR.

1978 - 1979 Scientist. Institute of Nuclear Physics, Tashkent, USSR.

3. Academic research and development activities:

3.1 Previous research and development activities

1999-2003 The mechanism of exoelectron emission and luminescence of ionic crystals .

1993-1999 Characterisation of Advanced TL Materials(4 peer reviewed papers) .

1991-1995 Optical characteristics of materials used for creation of optical fibers in IR spectral range .

1988-2000 the relationship of exoelectron emission and luminescence to phase transitions in high temperature superconductors .

1974-1989 Influence of surface perturbations on exoelectron emission and luminescence of solids; the role of point (including surface) defects in the formation of exoemission and luminescence properties of solids; development of exoelectron and luminescence dosimeters; .

3.2 Present research and development activities

Since 2007 Spectroscopy of biocompatible materials .

Since 1999 development of "The Unified Interaction-Kinetic-Track Structure Model"

Since 1993 Radiation induced thermoluminescence; TL kinetics; optical spectroscopy of TL and OSL materials.

4. Grants

2019 – 2022 Oster, L. (SCE- Sami Shamoon College of Engineering), Eliyahu, I. (Soreq-NRC), Horowitz, Y. (BGU), The accurate determination of radiation dose in clinical/medical applications. Ministry of Science and Technology, ₪ 1,300,000.

2018 – 2020 Oster, L. (SCE- Sami Shamoon College of Engineering), Eliyahu, I. (Soreq-NRC), Horowitz, Y. (BGU), Fast Neutron – Gamma Discrimination via Combined TL and OSL Measurements. PAZY Foundation, ₪ 900,000.

2009 – 2013 Oster, L. (SCE- Sami Shamoon College of Engineering). Single element high

- ionization density discrimination space and clinical dosimetry based on combined thermally stimulated and optically stimulated complex defect system". Israel Science Foundation (ISF), ₪ 351,000.
- 2005 – 2006 Oster, L. (SCE- Sami Shamoon College of Engineering). Optical Spectroscopy from Ultrathin Films and Quantum Silicon Dots Structures". Grant from Tel-Aviv University, ₪ 20,000.
- 2004 – 2005 Oster, L. (SCE- Sami Shamoon College of Engineering). Optical Spectroscopy from High-K Dielectric Materials for VLSI". Grant from Tel-Aviv University, ₪ 50,000.
- 1999 – 2002 Oster, L. (SCE- Sami Shamoon College of Engineering), Horowitz, Y.S. Ben-Gurion University) Development of a Solid State,Tissue-Equivalent, Microdosimeter Based on LiF:Mg,Ti. United States - Israel Bi-National Science Foundation (BSF), \$111,000.
- 1997 – 2000 Oster, L. (SCE- Sami Shamoon College of Engineering). Development of a Stable, Highly Efficient LiF:Mg,Cu,P Thermoluminescent Material". Rashi Foundation, \$60,000.
- 1994 -1995 Oster, L. (Ben-Gurion University). Mechanisms of Thermoluminescence in LiF:Mg,Ti". C'tee for Budgets and Planning-BGU, Faculty of Natural Sciences Seed Funding, \$6,500.

5. List of publications

5.1 Chapters in books

1. Horowitz, Y., Oster, L., Eliyahu, I., "Modeling the Effects of Ionization Density in Thermoluminescence Mechanisms and Dosimetry" in "Advances in Physics and Applications of Optically and Thermally Stimulated Luminescence", 2019, World Scientific.
2. Horowitz, Y., Chen, R., Oster, L., Eliyahu, I., "Thermoluminescence Theory and Analysis: Advances and Impact on Applications" in "Encyclopedia of Spectroscopy and Spectrometry", 3rd edition, 2017, vol. 4, 444-451, Oxford, Academic Press, Elsevier Ltd.

5.2 Peer reviewed papers

6. Academic roles

Since 2017 Member of the Supreme Committee for the Appointment of Professors in the Exact Sciences and Engineering, Council for Higher Education.

Since 2013 Head of Physics Unit

Since 2011 Member of the Editorial Board

Since 2005 Member of the Publications Committee. SCE – Sami Shamoon College of Engineering, Israel.

Since 2003 Member of the Academic Council. SCE – Sami Shamoon College of Engineering, Israel.

Since 2003 Membert of the Academic Advisory Committee. ISEF - International Education Foundation, Israel.

7. Courses taught

Since 2019 M.Sc. program. Interaction between radiation and environment. SCE – Sami Shamoon College of Engineering, Israel.

Since 1996 B.Sc. program. Introduction in Physics 1. SCE – Sami Shamoon College of Engineering, Israel.

Since 1996 B.Sc. program. Introduction in Physics 2. SCE – Sami Shamoon College of Engineering, Israel.

Since 1996 B.Sc. program. Physics 1. SCE – Sami Shamoon College of Engineering, Israel.

Since 1996 B.Sc. program. Physics 2. SCE – Sami Shamoon College of Engineering, Israel.

8. Courses development

Oster, L. B.Sc. program. Physics 2a for Electrical and Electronical Engineering Students. SCE – Sami Shamoon College of Engineering, Israel.

Oster, L. M.Sc. program. Interaction between radiation and environment. SCE – Sami Shamoon College of Engineering, Israel.

9. Editorial roles

9.1. Editor/member of editorial board of journal

Since 2011 Member of the Editorial Board of the OXFORD Journal "Radiation Protection Dosimetry"

2007. Associate Editor, Proceedings of the 15th International Conference on SSD, Delft, The Netherlands, July, Elsevier.

2008 Editor, Solid State Dosimetry, Proceedings of the XIIIth International Conference on SSD, Athens, Greece, July, Nuclear Technology Publishing.

1998-1999 Editor, Book of Problems "Physics II (Electricity and Magnetism)" for Engineering Students, Negev Academic College of Engineering, Beer-Sheva,.

9.2. Manuscript reviewer

Since 1994 Radiation Protection Dosimetry

Since 1996 Radiation Measurements.

Since 2000 Journal of Luminescence.

Since 2000 Physica Status Solidi

Since 2010 Nucl. Instrum. Meth. (B).

Since 2018 Applied Radiation and Isotopes
Since 2018 Radiation and Environmental Biophysics
Since 2018 Radiation Physics and Chemistry

10. Positions in conferences

1. Session Chairman. XV International Conference on Luminescence and Laser Physics, Arshan, Russia, 2016.
2. Session Chairman. International Symposium on Biomedical Engineering and Medical Physics, Riga, Latvia, 2012.
3. Session Chairman. The 7th International Conference on Luminescent Detectors and Transformers of Ionizing radiation, Kraków, Poland, 2009.
4. Member of the Scientific Advisory Committee, Program Committee, Travel Support Committee and Secretary. The 13th International Conference on Solid State Dosimetry, Athens, Greece, 2001.
5. Session Chairman. The 15th International Conference on Solid State Dosimetry, Gelft, The Netherlands, 2007.
6. Session Chairman. World Congress on Medical Physics and Biomedical Engineering, Sydney, Australia, 2003.
7. Session Chairman. The International Conference on Biomedical Engineering and Microtechnologies, Riga, Latvia, 2002.
8. Session Chairman. The 13th International Conference on Solid State Dosimetry, Athens, Greece, 2001.
9. Session Chairman. The International Conference on Luminescence and its Applications, Baroda, India, 2000.
10. Session Chairman. The 12th International Conference on Solid State Dosimetry, Burgos, Spain, 1998.

11. Membership in professional/scientific societies

1. 1998-2007 International Solid State Dosimetry Organization (ISSDO , thirty - member committee).
2. 1999-2001 International Scientific Advisory Committee SSD (twenty-six-member committee), SSD-2001, Athens, Greece.

12. Additional activities

12.1. Research students

1. 1982-1984 - O. Gurgova, M.Sc., Thesis, "Dosimetric Characteristics of Alkali - Earth Sulphates". Tashkent University.
