

CURRICULUM VITAE AND LIST OF PUBLICATIONS**1. Personal Details**

Name: Dr. Daniel Feingold

Date and place of birth: 7/3/1982: Jerusalem, Israel.

Regular military service: 2/2001-2/2003.

Address and telephone number at work: Achva Academic College, Arugot, Israel.

Address and telephone number at home: Nataf 131, D.N Harei Yehuda. Tel: 972-(0)77-7031982.

Cell phone: 972-(0)522-350804

**2. Higher education****A. Undergraduate and Graduate Studies**

<b>Period of Study</b>	<b>Name of Institution and Department</b>	<b>Degree</b>	<b>Year of Approval of Degree</b>
2008 to 2013	Bar Ilan University – Department of Psychology	Ph.D	2013
2008 to 2010	Bar Ilan University – Department of Psychology	M.A Rehabilitation Psychology (Excellence Program, conducting PhD research directly from B.A.)	2010
2004 to 2007	Hebrew University, Departments of Psychology and General Studies	B.A.	2007

**B. Post-Doctoral Studies**

<b>Period of Study</b>	<b>Name of Institution, Department and Host</b>	<b>Degree</b>	<b>Year of Approval of Degree</b>
2013 to 2014	Sheba Medical Center, Department of Psychiatry, Dr. Shaul Lev-Ran	Post-doctoral program	2014

**3 Academic Ranks and Tenure in Institutes of Higher Education**

<b>Dates</b>	<b>Name of Institution and Department</b>	<b>Rank/Position</b>
2023-	Achva Academic College	Senior Lecturer/Head, MA program in rehabilitation psycholgy
2022 to 2023	Ariel University, Department of psychology	Senior Lecturer, with tenure
2020-2022	Ariel University, Department of psychology	Senior Lecturer
2014-2020	Ariel University, Department of psychology	Lecturer
2013 to 2014	David Yellin Academic College of Education, Department of art therapy	Adjunct Lecturer
2012 to 2014	Bar-Ilan University, Department of Psychology	Adjunct Lecturer

#### 4. Offices in Academic Administration

*2023-	Head, MA program in Rehabilitation Psychology, Achva Academic College.
*2019-2021	Head, Ethics review board, Department of psychology, Ariel University.
2017-present	Head, Clinical Field work coordinator, B.A program, Department of psychology, Ariel University

#### b. Organization of Conferences or Sessions

<b>Date</b>	<b>Name of conference</b>	<b>Subject of Lecture/Discussion</b>	<b>Role</b>
2023*	1 <sup>st</sup> Ariel University Conference on Addictions		Organizing committee, scientific committee
2022*	4 <sup>th</sup> Annual conference on Addiction therapy. Online conference		Initiator, organizing committee, scientific committee
2022*	Annual Meeting of the Israeli Society of Addiction Medicine (ILSAM). Online conference	Addiction treatment	organizing committee, session leader, scientific committee
*2021	3 <sup>rd</sup> Annual conference on Addiction therapy. Online conference		Initiator, organizing committee, scientific committee, session

			leader
*2020	Addiction seminar, 'Mifrasim' (Sails) institute for psychotherapy research and teaching. Tel-Aviv,	Addiction among combat veterans	organizing committee
*2020	2 <sup>nd</sup> Annual conference on Addiction therapy. Lev-Hasharon Medical Center		Initiator, organizing committee, scientific committee, speaker
*2019	Addiction seminar, 'Mifrasim' (Sails) institute for psychotherapy research and teaching. Tel-Aviv,	Moral Injury and addiction	organizing committee
*2019	1 <sup>st</sup> Annual conference on Addiction therapy. Lev-Hasharon Medical Center		Initiator, organizing committee, scientific committee, narrator,
2019	Annual Meeting of the Israeli Society of Addiction Medicine (ILSAM). Haifa.	Addiction treatment	organizing committee, scientific committee, Session leader
2018	Addiction seminar, 'Mifrasim' (Sails) institute for psychotherapy research and teaching. Tel-Aviv,	Addiction and family	organizing committee
2017	Addiction seminar, 'Mifrasim' (Sails) institute for psychotherapy research and teaching. Tel-Aviv,	Treating cannabis use disorder	organizing committee

### 7. Invited Lectures\Colloquium Talks

Date	Place of Lecture	Name of Forum	Presentation/Comments
*2022	Hebrew University, Jerusalem, Israel	Student counseling center	Addiction: From research to practice
*2022	Ben Guiron University. Be'er Sheva, Israel	Student counseling center	Addiction: From research to practice
*2022	Zoom meeting	'Kav Lachinuch': Smoking cessation instructors training	Cannabis: drug or medicine?
*2021	Tel Hashomer military camp	Combat response military unit: staff seminar	Cannabis and trauma
*2021	Zoom meeting	Ben-Gurion University Community Counselling Services: Seminar for the clinical staff.	Addiction among young adults
*2021	Zoom meeting	Schneider Children's Medical Center: Staff seminar	Addiction among adolescents
*2021	Zoom meeting	Soroka Medical Center: Ministry of Health seminar for addiction professionals	Motivation for change among individuals with substance use disorders
*2021	Zoom meeting	9 <sup>th</sup> annual meeting of "lines and thoughts" association for ADHD treatment	Cannabis use and ADHD
*2020	Netanya, Israel	Municipal unit on adolescent drug abuse	Enhancing Motivation for Change in Substance Abusing Youth
*2020	Meier Medical Center	Clalit services physicians training	Cannabis: drug or mediation?

*2019	Beilinson Medical Center	pain medicine clinic	addiction among chronic pain patients
*2019	Maale Hachamisha Conference center	Reut rehabilitation services	Treating dual diagnosis
*2019	Kfar Shaul Mental Health Center	Two-day seminar for staff	Motivation for change among psychiatric patients
*2019	Ministry of Education	Seminar for regional supervisors	Cannabis among adolescents
2018	Trimbos Institute, Utrecht, Netherlands.	Research meeting	Cannabis use and its effect of psychiatric disorders. Invited seminar.
2018	Ichilov Medical Center, Tel Aviv	Pain center medical staff research meeting	Problematic Use of Prescription Medication and Medical Marijuana
2018	Retorno Institute, Beit Shemesh	Staff seminar.	Barriers to Treatment among Individuals with Substance Use Disorder.
2018	Sheba Medical Center	Pain nursing seminar	Problematic use of prescription Medication and Medical Marijuana
2018	Lev-Hasharon Mental Health Centre	Medical staff research meeting	Depression and anxiety as risk factors for misuse of prescription opioids among chronic pain patients
2017	Bar Ilan University	The Community Counselling Clinic: Three-day seminar	Addiction: prevalence, assessment and treatment
2017	Bar Ilan University	Students Counselling Services: Seminar for the clinical staff.	Treating addiction among young adults
2017	Sheba Medical Center	medical training center	Chronic pain and addiction
2016	Reut Medical Center	pain medicine clinic	addiction among chronic pain patients
2016	Rambam Medical Center	pain medicine clinic	Chronic pain and addiction to prescription opioids.
2016	Sheba Medical Center	pain medicine clinic	addiction among chronic pain patients
2014	Bar-Ilan University	Department of Psychology: MA level student meeting	Dual diagnosis: prevalence, theories & treatment
2013	Bar-Ilan University	Department of Psychology: MA level student meeting	Addiction medicine in ambulatory setting
2011	Bar-Ilan University	Department of Psychology: MA level student meeting	Mental Health and Stigma
2010	Bar-Ilan University	Department of Psychology: MA level student meeting	Decreasing Self Stigma among People with Severe Mental Illness

## 8. Research Grants

### a. Grants Awarded

### **L. Summary of my Activities and Future Plans**

Since receiving my current academic rank, I established a leading international role in the study of psychological correlates of cannabis use and cannabis use disorder. Scholarly projects which I initiated and led have made a notable impact on the field of cannabis research, including authorship of 22 papers in peer-reviewed journals (49 papers in total), leading an official report for the E.U's authority on drug monitoring, editing a

special issue and most recently, developing and validating a standardized instrument for clinical and academic assessment in the field of cannabis use. Since receiving my current rank, I took a senior role in several research projects, empowering research students and young researchers to serve as first authors while closely mentoring them and serving as project manager. This move has allowed me to keep an active and fruitful lab and mentor the future generation of researchers while engage in additional academic projects which will be described hereby.

In 2020, I was a guest editor in a special issue titled 'Psychological aspects of cannabis use and cannabis use disorder', published in *Frontiers in Psychiatry: Addictive Disorders* (IF 2.857). This special issue included 14 published manuscripts, with contributions from leading researchers in the field, which were now downloaded more than 80,000 times. Following this contribution, I was invited by the European Monitoring Centre for Drugs and Drug Addiction (EMCDDA) to serve as a co-PI in the preparation of an official report on cannabis use disorder treatment efficacy and availability in the E.U. My involvement included building an international team of contributors, as well as coordinating the ongoing academic work and keeping routine contact with the EMCDDA administration. This report has been recently submitted to the EMCDDA and I presented it in an invited lecture at 'Lisbon Addictions 2022', the most impactful European conference on addictions. Three manuscripts based on the report are currently in final stages of preparation prior to submission to a special issue dedicated to the report in *European Archives of Psychiatry and Clinical Neuroscience* (IF 5.76).

Furthermore, following a commentary I published in *Lancet Psychiatry* (IF 18.329), I recently led a multidisciplinary team of research experts in the fields of psychology, medicine and public health in developing the Medicinal Cannabis Consequences Scale (MCCS), an assessment tool for identifying problematic use of medicinal cannabis. This highly anticipated tool has been validated throughout (see, for example, Gliksberg et al., accepted; Hulaihel et al., 2022) is currently being submitted to publication and assimilated into treatment centers in Israel.

My research lab has continued to be extensively active and fruitful since receiving my current academic rank. Since 2020, I was the author of 22 papers published in peer-review journals, seven of which were published in Q1 journals, and two book chapters. Of these total 24 publications, I was the first author in 10 papers and two book chapters and the senior (last) author in seven papers, five of which were first-authored by research students from my lab (working under my supervision). My recent authored papers were

published in leading journals, including *Lancet Psychiatry* (IF 18.329), *Schizophrenia Bulletin* (IF 7.575), *CNS & Neurological Disorders Drug Targets* (IF 4.388) *International Journal of Drug Policy* (IF 4.244), *Schizophrenia Research* (IF 3.958), *Drug and Alcohol Dependence* ISI (IF 3.951) and *Addictive Behaviors* (IF 3.91).

Five of my last 22 publications in peer-reviewed journals were international collaborations which stem from my increasing involvement in the global cannabis scientific community. For example, following my participation in the Lisbon Addictions 2019 workshop on 'Standard Cannabis Joint' I collaborated with top cannabis researchers, led by Prof. Antoni Gual from the Hospital Clínic de Barcelona, Barcelona, Spain, in writing two conceptual papers which were published to addiction journals (see López-Pelayo, 2021a; López-Pelayo, 2021b). In addition, following my invited contribution to a book on Cannabinoids and Neuro-Psychiatric Disorders published by Springer Publishing (see Feingold & Weinstein, 2021), I was invited by the co-editor, Prof. Eric Murillo-Rodríguez from the Anahuac Mayab University in Mérida-México, to contribute to an international collaborative review focusing on neural correlates of the association between cannabis and depression (see Alcaraz-Silva et al., 2022). An additional review by this team is currently in preparation.

My future plans involve primarily a four-year multi-method longitudinal investigation of the effect of heavy cannabis use on romantic relationships. This project recently received the Israeli Science Foundation (ISF) grant (personal track) for four years, 360K NIS. It is expected to broaden our understanding of the psycho-social effects of heavy cannabis use and inform policy makers concerning its harms/benefits. This is important considering the recent advancement towards legalization of cannabis in Israel and abroad. In addition, I expect this project to excel my lab's effort to develop the means required for conducting multi-method studies focusing on lives and subjective experiences of individuals who use drugs, particularly in the field of intimate romantic relationships. Another international collaboration which has recently undergone is a longitudinal multi-site study on the effect of cannabis use on psychological treatment outcome. This project is a collaboration with Dr. Carrie Cuttler from the Department of Psychology at Washington State University, U.S.A, Dr. Walter Scott, Director of Psychology Clinic, Washington State University Department of Psychology, U.S.A., and Prof. Garry Diamond, Director of Community Clinic at the Department of Psychology, Ben-Gurion University. The project is expected to launch in 2024.

In addition to the international impact made by my work, I continue to work on a national level to enhance the field of addiction research and evidence-based practice. I am considered an Israeli expert in addiction research and practice, serving as a board member at the Israeli Society on Addiction Medicine (ILSAM) and a consultant to the head of the Rehabilitation unit in the National Psychological Union. Under these two positions, I recently participated in writing several invited white papers concerning upcoming legislative changes in the field of substance use in Israel: cannabis legalization and transferring the drug rehabilitation services from the ministry of health to the Health Service Organizations. As a follow-up to one of these documents, I also represented the Rehabilitation unit in the National Psychological Union in a parliament ('Kneset') meeting of the joint committee examining the transfer of drug rehabilitation services to the Health Service Organizations.

Along these public service efforts, I continue my mission to share and assimilate the knowledge on addiction research and practice through my positions as guest lecturer in various professional training programs and thorough invited lectures in scientific conferences, student counseling services, and other academic and clinical forums across Israel and abroad.
