9. Scholarships, Awards, and Prizes

| | |
|------|---|
| 2023 | The outstanding researcher Award, Ruppin academic center, Prize of 10,000 NIS |
|------|---|

| | |
|------|--|
| 2023 | Ruppin Academic Center Excellence in Teaching and Research Award, |
| 2022 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2021 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2020 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2019 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2018 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2017 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2016 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2015 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2014 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2013 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2012 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2011 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2010 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2009 | Ruppin Academic Center Excellence in Teaching and Research Award |
| 2006 | Chairman of Doctoral Fellowship for Excellence- Bar Ilan University. 250,000 NIS Scholarship. |

10. Teaching

a. Courses taught in recent years

| Year | Name of Course | Type of Course | Degree | Number of Students |
|------|----------------|----------------|--------|--------------------|
|------|----------------|----------------|--------|--------------------|

| | | | | |
|--------------|---|----------|------|----|
| 2012-present | Interdisciplinary seminar – Honors Program | Seminar | B.A. | 20 |
| 2012-present | Critical thinking in the virtual world - Honors Program | Workshop | B.A. | 20 |
| 2011-2020 | Psychodiagnosis – Projective tests | Lecture | M.A. | 50 |
| 2011-2020 | Psychodiagnosis – MMPI test | Lecture | M.A. | 50 |
| 2011-2020 | Psychodiagnosis – Cognitive tests | Lecture | M.A. | 50 |
| 2011-2013 | Advanced statistics | Lecture | M.A. | 25 |
| 2010-Present | Suicidality, crisis, and growth | Seminar | B.A. | 20 |
| 2009-Present | Psychopathology (A+B) | Lecture | B.A. | 60 |
| 2009-2020 | Theories in personality (A+B) | Lecture | B.A. | 60 |
| 2000-2008 | Research methods | Lecture | B.A. | 60 |

b. Supervision of graduate students

| Name of Student | Title of Thesis | Degree | Date of Completion/in Progress | Co-supervisor |
|------------------------|---|---------------|---------------------------------------|-----------------------|
| Avia Hadad | Moral injury and suicide ideation – a longitudinal examination of the aggressiveness as moderator | M.A. | 2023 | |
| Moria Danor | Self-disclosure and distress among combatants in the IDF | M.A. | 2023 | |
| Roni Roznits | Moral injury and post traumatic growth | M.A. | 2023 | |
| Hodaya Cohen | Moral injury and PTSD among soldiers | M.A. | 2023 | |
| Gal Aharon | Masculinity and suicidality – the moderation of interpersonal factors | M.A. | 2023 | Dr. Daniela Aisenberg |

12. Professional Experience

(a) Clinical training and accreditation

| | |
|-----------------|---|
| 2021-present | Buddhism psychology |
| 2020-present | Mindfulness-based Cognitive Therapy (MBCT) for depression and anxiety. |
| 2015-present | Psychotherapy supervisor of short-term psychotherapy for suicide prevention among adolescents |
| 2010-present | Private practice as clinical psychologist |
| 2006-2016 | Clinical psychologist, The Prime Minister's office of Israel |
| September, 2011 | Board certification as an expert clinical psychologist. The Health Ministry Council of Clinical Psychology #30624 |
| 2006-2012 | Clinical Psychologist, Tel-Aviv Community Mental Health Center |
| 2005 | Listed in the Israel Registry of Psychologists, Health Ministry, #8286 |

(b) Workshops and Teaching

| | |
|--------------|---|
| 2015-present | Professional workshops on suicidal assessment processes for educational and clinical psychologists and mental health professionals (More than 100 workshops nationally) |
| 2013-present | Professional workshops at the Israeli National Suicide Prevention Program (More than 200 workshops nationally) |
| 2006-present | Workshops for beginners and practitioners on MMPI2-RC (More than 80 workshops nationally) |
| 2006-present | Professional workshops and lectures to high school and college students, teachers, and mental health professionals regarding suicide prevention (More than 350 lectures nationally) |

PUBLICATIONS

A. Ph.D. Dissertation

"The impossible situation": Communication and mental pain in medically serious suicidal behavior. Approved 2006, 232 pages, in Hebrew, Bar-Ilan University, Supervisors: Prof. Alan Apter and Dr. Netta Horesh.

B. Scientific Books (Refereed)

(a) Authored Books – Published

L. Summary of my activities and future plans

I am a clinical psychologist and clinical scientist, who is primarily interested in the psychological mechanisms that can help us understand and prevent suicide in different at-risk populations (adolescents, soldiers, veterans, ex-prisoners of war, medically serious suicide attempters, etc.). Other related key research topics include suicide survivors, specifically, the ability to grow following suicide loss in the family. Parallel research areas are interpersonal interaction in both real life and in therapy sessions, moral injuries and traumatic events, and attitudes of the public toward psychotherapy. Since the receiving of my Associate Professor rank I published 64 scientific papers, one book, one chapter, three competitive grants and several national grants.

In my professional career, I strive to merge clinical, social, and research work and consider the integration of these three aspects as the central value of my work. One of my main projects is the topic of *growth among suicide survivors*. In this project, we examined the growth ability among suicide survivors, and in particular, the psychological mechanisms that may facilitate this posttraumatic growth. We have conducted several studies, both cross-sectional and longitudinal. We were able to show that alongside the harsh consequences of suicide in the family, there are interpersonal characteristics that can facilitate growth among survivors. Building on our results, we are now working on a specific clinical protocol to induce posttraumatic growth among suicide bereaved, funded by the American Foundation of Suicide Prevention (AFSP) and another AFSP grant for examine MBCT intervention in this population.

Another interesting and ongoing project of mine is the investigation of psychological risk factors among medically serious suicide attempters. A promising strategy to study suicidal behavior is to study individuals who have made a definite, near-fatal attempt, termed *medically serious suicide attempt*-MSSA. This group has been found to epidemiologically closely resembling those who died by suicide. The goal of this project was to understand the interactions between different personal and interpersonal characteristics in order to construct a psychological model relating to more dangerous suicidal behavior, such as behavior involving high lethality and high suicide intent. Last year I received a grant of one million NIS for a study that integrating psychological theory, data science and artificial intelligence for real time assessment of imminent suicide risk.

Yet another major interest of mine is *suicidal behavior and ideation among ex-prisoners of war*. War captivity is one of the most severe human-inflicted traumatic experiences, having wide and substantial long-term negative effects. However, little is known about suicidality among ex-POWs and the factors that may contribute to suicide behavior and ideation. In this project, we prospectively assessed suicidal behavior and ideation over a 17-year period in order to understand the unique trajectories of suicidality among this group. Currently we are expanding the project to deal with the trajectories of suicide ideation among ex-POW children.

A new important project of mine is the study of the *moral injury experience* and its role in facilitating posttraumatic stress symptoms as well as suicidal behavior and suicide ideation among war veterans and soldiers. In this project, we tried to understand the factors that mediated the relationship between *moral injury* and PTSD and suicidal ideation and behavior among Israeli veterans. This is the first study who examine these relationships outside of US. Recently, we received a grant to the IDF and a grant from the AFSP in order to examine longitudinal course of moral injury among Israeli soldiers and veterans.

On 2018 we established the "Lior Tsfaty Center for Suicide and Mental Pain Studies (CSMPS), and I'm honored to serve as the chair of the Center. On 2018, we got funded of NIS 250,000 to facilitate the main activities of the center. On 2021, we got private grant of NIS 50,000 for a study and suicide prevention among ultraorthodox believers who left the religion. As part of the center activities, we are leading several annual conventions and symposiums on topics of

mental pain and suicide, such as an annual meeting of the Israeli Suicide Research Symposium (ISRS), which provides a forum for those who share an interest in suicide prevention, intervention, and postvention, including researchers, physicians, clinicians, social workers, students, and educators, as well as those who have lost a loved one. We also conduct numerous talks and workshops on suicide prevention and related topics to the community.

Aside from my research work, I devote time to clinical work, supervising clinicians who treat suicidal adolescents, and teaching mental health professionals within the suicide prevention program in Israel. I also do volunteer work as a board member and the head of the research branch of *Bishvil Hahaim (For Life)*, a non-profit organization that deals with suicide prevention, as well as helping Israeli suicide survivors. In this position, I am currently finalizing a second book which seeks to shed light and a new perspective on the suicide phenomenon. Recently I became the head of the Academic suicide prevention lobby in the academies in Israel, and we start to implement suicide prevention workshops to faculty staff in several universities in Israel.

Further related to academic work, I serve as the chair of the Honors Program at Ruppin Academic Center. I also served as the head of the psychodiagnosis specialty in the Department of Clinical Psychology for many years.

Altogether, I feel honored to be a clinical psychologist, researcher, and social activist, with the goal of preventing suicide and providing relief to those people in need.
